

**Fire protection systems for cables**

# unitherm® Fire Protection Systems Cables

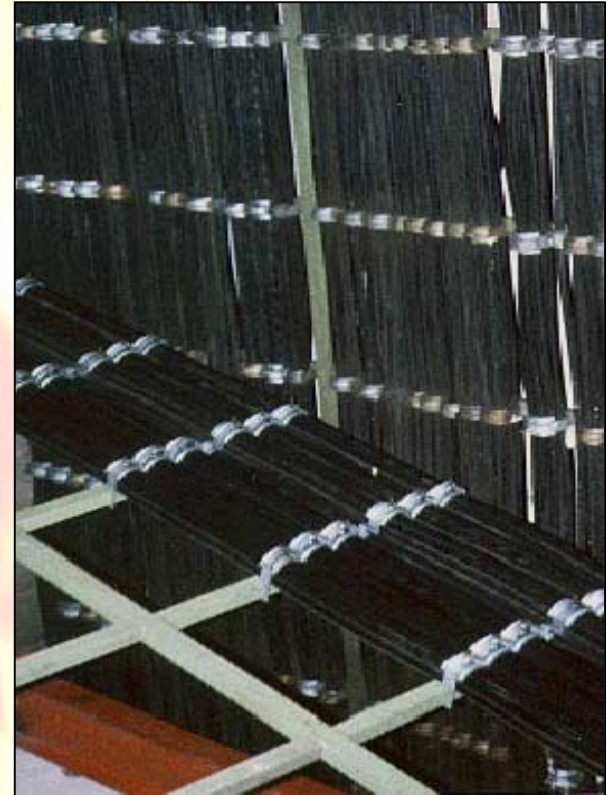

Most of electrical  
cables and  
cable systems  
prove fire risk

# unitherm® Fire Protection Systems Cables

Many installations  
do not offer space  
enough for channels.

# unitherm® Fire Protection Systems Cables

In these cases  
intumescent coatings  
overtake the function  
of cable protection.

# unitherm® Fire Protection Systems Cables

Coatings  
on cables  
do not prove  
fire resistance  
but ...

# unitherm® Fire Protection Systems Cables

hinder ignition

prevent spread of flame

reduce smoke emission

# unitherm® Fire Protection Systems Cables

The insulating layer  
even keeps  
the inner cables ineffectuated.

# unitherm® Fire Protection Systems Cables

Coatings on cables are applied  
on the surface and  
include protection  
of the supporting service

# unitherm® Fire Protection Systems Cables

- no additional space needed
- flexible installation
- perfect adjustment to any given installation problem
- easy reversibility
